

Insulated Composite Doors
The smart choice for any home

What we do best...

At Doorsmart we utilise the latest advances in composite door technology to offer our customers the very best in design and quality. Choosing an entrance for your home should be done with consideration. It needs to be strong, secure, durable and most of all attractive to look at. Our doors offer outstanding insulation, weather resistance and provide a door that is highly durable with very little maintenance required.

While modern composite doors are constructed of many varied materials, there is only Doorsmart's that provide the look and feel of timber.

The Doorsmart range displays all the timber-like appearances with attractive depression mouldings and decorative graining, with endless colour options to choose from we believe we offer an outstanding choice.

When choosing a standard coloured door the colour is introduced into the fibreglass during manufacture making a unique through colour facing which is highly durable – truly a door for the future. With a range that offers numerous door designs that can be chosen in various standard colours we offer an outstanding package. However we have recognised that some of our customers may want that extra something different and have now introduced our extensive spectrum painted range. The spectrum range is a surface sprayed item and can be ordered either as a RAL Code, BS Number, Dulux, Farrow & Ball or Veltspar the list is endless. Whether its pink, purple, yellow, turquoise or lime green all options can be accommodated.

Now you have chosen your door design and colour it's down to your choice of glass and door furniture. We have provided a number of glass designs that feature coloured glass, subtle or striking patterns and varieties of obscure glass to provide privacy to the level that suits you. Every effort will be made to accommodate any special glass designs or requirements you may have.

The entrance to your home is important because first impressions really do count!

Door Style: Eastnor | Door Colour: White | Glass: Kara Brass

The smart choice for any home...

We understand that protecting your home and family is a major factor to consider when choosing your new door. At Doorsmart safety and security are at the forefront of our priorities. Statistics show that a property is burgled every minute in the United Kingdom. With a 44.5mm thick composite door, reinforced door outer-frame and secured by design locking options, we offer the most secure door option available in the residential sector.

Our policy is to manufacture a composite door of the highest specifications and quality and to provide a personal service to meet the needs of our customers.

At Doorsmart we deliver all of our products direct to your chosen destination offering that personal touch. Doorsmart the smart choice for any home.

- Security
- Impact resistant GRP with rigid polymer subframe
 - Proven to PAS24 security standards and prerequisite for achieving secured by design accreditations

 - Door design
 - Door colour
 - Glass design
 - Door furniture

- Durable
- Tried and tested for over 20 years
 - Whatever the British weather
 - Strength – due to its construction
 - High impact door leaf

Our next generation of doors

Door Style: Chartley | Door Colour: Distinction Anthracite Grey | Glass: Lunna

Whilst we feel the choice and quality of our doors are unparalleled; we are constantly striving to raise the bar, to improve our products and to give our customers more. This can be seen very clearly in the latest addition to our range. It's called next-generation, and for very good reason. The range features our latest innovation where the flush-fitted innerframe sits level with the moulding to give sleek finish.

Symmetry and balance are also very much key elements as we want you to look at your door and feel it is perfect in every way.

Great Choice Of Colour

Our range of colours, styles and glass options will make your door truly unique and by ensuring that we perfectly match the colour, wood grain and moulding on the glazing cassettes, you can guarantee a flawless finish.

We recommend that doors are supplied with a white PVCu outerframe, however, various colours are available on request.

All doors are white on the inside as standard.

Standard Colours

The nxt-gen doors shown can be ordered in the classical collection so that the Rosewood and Oak colour options become available to choose. Craftsman is available in white and bespoke colours only.

What makes our door so special?

- Unparalleled security features
- Exceptional durability
- Low maintenance
- Excellent weatherproofing
- Superb sound insulation
- Stunning aesthetics

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Door Furniture

We have always strived to provide the largest array of door furniture for the composite door industry. We are now pleased to offer the Heritage, Forged and Architectural Hardware ranges to our collection.

Letterplates

- Architectural Letterplate with modern contemporary lines available in chrome, gold, bronze, graphite grey, pewter, antique black and forged black
- Heritage Letterplate with a traditional look available in chrome, gold, antique black and graphite grey
- Fully sprung with colour coded flap and frame

Knockers

- Bull Ring Knocker creates an heritage look and is available in chrome, gold, black, bronze, graphite grey, pewter, antique black and forged black
- Spire Knocker creates an heritage finish that is available only in two colours which are forged black and pewter
- Ingot Knocker available in brushed steel

Handles

- Handle styles have become the must and we now offer six styles to meet our customers needs Classic, Regal, Monkeytail, Noble, Architectural, Heritage and Swan
- Classic is available in all colours
- Regal, Monkeytail and Noble are available in forged black and pewter only
- Architectural are available in chrome, graphite grey, bronze and gold
- Heritage are available in chrome, graphite grey, antique black, gold and pewter
- Heritage Ring Pulls - if you don't like door handles then pick the Heritage Ring Pull to give that traditional looking door

Door Construction and Door Hinges

The doors are constructed by bonding high impact fibreglass outer skins to composite rails surrounding an inner core of very high thermally efficient insulating foam which includes an inner reinforced insert which prevents chisel attacks.

- The Dynamic door hinge features fit and forget principles which eliminate remedial work on sagging doors and easy installation
- Hinges actually play a vital role in the security performance of a door
- In order to obtain a test accreditation the hinges pass rigorous tests, involving attack by hammers, pry bars and shoulder charging
- As the toughness of locks increase, the durability of hinges becomes more important
- SFS intec hinges are robust enough to meet and exceed these standards throughout the lifetime of the door

Dynamic Door Hinge

Door Construction

Door Locks & Options

The Doorsmart range offers the highest levels of security, four locking systems to meet your requirements...

- Ingenious Lever/Lever or Lever/Pad Lock - The Ingenious locking system can be used for Lever/Lever or Lever/Pad operation and has top and bottom claws for added security with a claw bolt also fitted as standard. The centre latch has a latch retention catch so that the door can be left open when in and out of the property.
- Winkhaus Wind Up Lock - The Winkhaus Wind Up Lock is ideally suited to our Unique door range where Stainless Steel Bar Handles are chosen. When the door is latched the door is locked from the outside and can only be operated with a key from the outside. From the inside the door is operated by a Thumb-turn and to lock the door the Thumb-turn is turned clockwise to engage the top and bottom hooks which then locks the door securely.
- Heritage Thunderbolt Wind Up Lock - The Heritage Thunderbolt Lock works exactly the same as the above but the cylinder height is higher up the door to give that traditional look. It is also an option for families that have small children so they cannot operate the door and reach the locking mechanism.
- Winkhaus AV4 Slam Shut Lock - The Winkhaus AV4 Slam Shut Lock is by far the most secure lock on the market if you want a shut and forget option. As soon as the door strikes the door outer frame the top and bottom hooks are fired automatically so that the door fully locked from the outside. No more lifting of door handles and is ideally matched with our Stainless Steel Bar Handle range. Bar handle sizes range from 400mm, 600mm, 900mm, 1200mm, 1500mm and 1800mm.
- Customise your door locking options with handles, door knobs, pulls and bars.

Cills

95mm, 155mm, 180mm Available in all colours

Keep your door looking great for longer

To prolong the life of the surface, a small amount of care and attention is needed. How often will depend on where you live. In a coastal or heavily industrialised area or near a main road, cleaning may need to be more often.

We recommend that you only use warm soapy water (washing up liquid is suitable) with a lint free cloth and wipe dry with a soft clean cloth.

PLEASE DO NOT...

- Use abrasive cleaners or scouring pads
- Use pressure washers or steam cleaners
- Apply any type of bleach or solvent
- Apply any adhesives of any type or tack
- Have any contact with any sharp objects
